

Measurement Scavenger Hunt

Names: _____

Directions:

- Look for an object that you think will match the target length.
- Measure the object with single blocks.
- Count and pack the blocks to find the total number.
 - If the total number matches the given length, write down the name of the object.
 - If not, try again until you find a match.

Target Length	Object
45 single blocks	
120 single blocks	
Between 80 and 90 single blocks	
Between 130 and 160 single blocks	
Between 200 and 300 single blocks	

Measure the length of some more things. Write the lengths on the back. →
