Predict Before You Pack

1	Write the problem:	X
	WITE THE PRODUCTION	

2. Make a model of the problem with the blocks. Predict the answer.

3. Make a drawing of the blocks. Pack as much as possible and write the actual answer. In your drawing show how you packed.

Actual Answer				
Tens	Ones			
00000000				

4. On the back write about how your prediction compared with the actual answer.
