

15. Connect the Dots (into the 30's)

• RECOGNIZE WRITTEN NUMBERS IN ORDER (INTO THE THIRTIES)

STUDENT NEEDS:
worksheets

 20 minutes

INDEPENDENT WORK:

1. Students start at 1 and draw a line connecting the dots in order.
2. Repeat on additional pages.
3. Optional: Students color pictures.
4. When all have finished, students identify the completed pictures.

Assessment:

DOES THE STUDENT:

- connect the dots in the correct order

Differentiation:

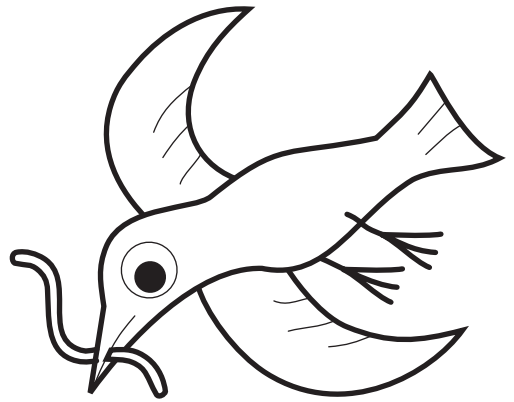

REINFORCEMENT:

- Provide students with a list of the numbers 1-39 in order.
- Teacher completes one worksheet as an example in front of the class (on the board or on an overhead projector).
- Have students redo the simple connect the dots worksheets from "Getting Started," which use only the numbers 1-10. Then, have them try these worksheets.

EXTENSION:

- Students design their own connect the dots picture.
- Students rewrite numbers next to the printed ones or write them in order in a separate list.
